

SALI COSMIE

LIQUID LIGHT VISUALS & PERFORMANCE

SALI COSMIE is the performative live visuals project by Austrian-Egyptian visual artist, interior and stage designer Sali Mayr-Hassan.

Exploring the art of liquid light shows both analogly by overhead projection and digitally via capturing the drawing process via microscope camera, computer and projector, her stunning visuals unveil hypnotizing galaxies of shapes, transitions and movements found in the play of water, ink, glitter particles, oil and an array of undisplayed substances. Through her shows which include performing Sonus Pigmentarium at Wienwoche, Sali Cosmie invites the eye of the listener on an alchemic journey to the very core of atoms or the outskirts of the furthest galaxy as the mind unfolds in prismatic synesthesia.
